

BALKAN-SOLAR-ROOFS C H A R T E R

With rising energy prices and the impacts of climate breakdown being felt more acutely than ever, there is an urgent need for more renewable energy in our cities.

OUR LOCAL AUTHORITY COMMITS TO JOINING THE BALKAN SOLAR ROOFS CAMPAIGN TO PROMOTE SOLAR IN OUR CITY

By joining the Balkan Solar Roofs campaign, our local authority can:

- **access the Balkan Solar Roofs POSTER TOOL**
that enables the production of creative posters displaying participants and their energy-related testimonials,
- **map and explore opportunities**
for putting solar panels on municipal and private roofs
- **share and benefit from local experiences,**
network with other Balkan local authorities and link with European networks.

BY JOINING THE CAMPAIGN, OUR LOCAL AUTHORITY COMMITS;

- **to mobilise all actors:**
public servants, stakeholders and citizens
- **to support progress towards climate objectives at the local level,** via:
 - the implementation of a local Balkan Solar Roof campaign,
 - the display of posters, that requires each participant to sign an image consent form,
 - the promotion of the campaign at local events,
 - the organisation of meetings between municipal departments,

Balkan Solar Roofs is a EUKI funded programme that aims to enable and inspire 500 new solar roof installations in Balkan cities by 2024. The project is being piloted in three cities Poreč-Parenzo (Croatia), Mostar (BiH) and Kragujevac (Serbia) and is being rolled out to 40 Balkan cities. Energy Cities coordinates the programme with input and support from REIC/Regional Education and Information Centre for sustainable development in South East Europe based in Sarajevo. ZEZ Green Energy Cooperative based in Zagreb, Croatia, has been contracted to support the team with its expertise.
